Keyword index

Affect; diary study; psychological detachment; recovery; work engagement 257
Affective strain; occupational stress; job demand-control model; longitudinal research; military personnel 81
Aggression; violence; climate; work-related stress 108
Alcohol use; cross-lagged models; downsizing; spillover; longitudinal research; job security; work-related stress 51
Biological stress markers; organizational change; self-rated health; sick leave; work-related stress 69
Burnout symptoms; transit operators; job stress; coping; substance use 327
Burnout; effort–reward imbalance; morningness–eveningness; shift work; work–family conflict; work-related stress 125
Burnout; job demands-resources model; self-determination theory; work engagement; need satisfaction 277
Burnout; job demands-resources model; work engagement; well-being; depression; organizational commitment; cross-lagged panel analysis; positive psychology; dentists 224
Burnout; job resources; performance; workaholism; work engagement 187
Burnout; workaholism; self-employed; entrepreneurs; effort expenditure; well-being; working hours; work-related stress 153
Burnout; work–family conflict; work–family facilitation; Conservation of resources (cor) theory; sem analysis; longitudinal study; work-related stress 1
Causality; job change; job resources; reversed effects; work engagement; longitudinal study 201
China; interpersonal conflict; job stress; cross-cultural comparison 295
Climate; violence; aggression; work-related stress 108
Compulsory; overtime work; fatigue; work hours; work satisfaction; worktime control; rewards; mandatory; work-related stress 33
Confirmatory factor analysis, psychometrics; work-related stress; health and safety executive; indicator tool; risk assessment 96
Conservation of resources (cor) theory; work–family conflict; work–family facilitation; burnout; sem analysis; longitudinal study; work-related stress 1
Coping; transit operators; job stress; substance use; burnout symptoms 327
C-reactive protein; job strain model; inflammation markers; fibrinogen; white blood cell count; work-related stress 138
Critical incident stress debriefing; post-incident intervention; PTSD; firefighter; preference; work-related stress 314
Cross-cultural comparison; interpersonal conflict; job stress; China 295
Cross-lagged models; alcohol use; downsizing; spillover; longitudinal research; job security; work-related stress 51
Cross-lagged panel analysis; job demands-resources model; work engagement; burnout; well-being; depression; organizational commitment; positive psychology; dentists 224
Decision to participate; engagement; job embeddedness; performance; turnover; intention to leave; decision to perform 242
Decision to perform; engagement; job embeddedness; performance; turnover; intention to leave; decision to participate 242
Demand-control-support model; intent to leave; nursing; employment opportunity; workrelated stress 166
Dentists; job demands-resources model; work engagement; burnout; well-being; depression; organizational commitment; cross-lagged panel analysis; positive psychology 224
Depression; job demands-resources model; work engagement; burnout; well-being; organizational commitment; cross-lagged panel analysis; positive psychology; dentists 224
Depression; shiftwork; work–family conflict; work-related stress; gender 341
Diary study; affect; psychological detachment; recovery; work engagement 257
Downsizing; alcohol use; cross-lagged models; spillover; longitudinal research; job security; work-related stress 51
Effort expenditure; workaholism; self-employed; entrepreneurs; well-being; burnout; working hours; work-related stress 153
Effort–reward imbalance; burnout; morningness–eveningness; shift work; work–family conflict; work-related stress 125
Employment opportunity; demand-control-support model; intent to leave; nursing; workrelated stress 166
Engagement; job embeddedness; performance; turnover; intention to leave; decision to perform; decision to participate 242

Entrepreneurs; workaholism; self-employed; effort expenditure; well-being; burnout; working hours; work-related stress 153
Fatigue; overtime work; work hours; work satisfaction; worktime control; rewards; mandatory; compulsory; work-related stress 33
Fibrinogen; job strain model; inflammation markers; C-reactive protein; white blood cell count; work-related stress 138
Firefighter; post-incident intervention; PTSD; critical incident stress debriefing; preference; work-related stress 314
Gender; shiftwork; work–family conflict; work-related stress; depression 341
Health and safety executive; work-related stress; confirmatory factor analysis, psychometrics; indicator tool; risk assessment 96
Healthcare; transformational leadership; well-being; mediation; work characteristics; longitudinal 16
Indicator tool; work-related stress; confirmatory factor analysis, psychometrics; health and safety executive; risk assessment 96
Inflammation markers; job strain model; fibrinogen; C-reactive protein; white blood cell count; work-related stress 138
Intent to leave; demand-control-support model; nursing; employment opportunity; workrelated stress 166
Intention to leave; engagement; job embeddedness; performance; turnover; decision to perform; decision to participate 242
Interpersonal conflict; job stress; cross-cultural comparison; China 295
Job change; causality; job resources; reversed effects; work engagement; longitudinal study 201
Job demand-control model; occupational stress; affective strain; longitudinal research; military personnel 81
Job demands-resources model; self-determination theory; burnout; work engagement; need satisfaction 277
Job demands-resources model; work engagement; burnout; well-being; depression; organizational commitment; cross-lagged panel analysis; positive psychology; dentists 224
Job embeddedness; engagement; performance; turnover; intention to leave; decision to perform; decision to participate 242
Job resources; burnout; performance; workaholism; work engagement 187
Job resources; causality; job change; reversed effects; work engagement; longitudinal study 201
Job security; alcohol use; cross-lagged models; downsizing; spillover; longitudinal research; work-related stress 51
Job strain model; inflammation markers; fibrinogen; C-reactive protein; white blood cell count; work-related stress 138
Job stress; interpersonal conflict; cross-cultural comparison; China 295
Job stress; transit operators; coping; substance use; burnout symptoms 327
Longitudinal research; alcohol use; cross-lagged models; downsizing; spillover; job security; work-related stress 51
Longitudinal research; occupational stress; affective strain; job demand-control model; military personnel 81
Longitudinal study; causality; job change; job resources; reversed effects; work engagement 201
Longitudinal study; work–family conflict; work–family facilitation; burnout; Conservation of resources (cor) theory; sem analysis; work-related stress 1
Longitudinal; transformational leadership; well-being; mediation; work characteristics; healthcare 16
Mandatory; overtime work; fatigue; work hours; work satisfaction; worktime control; rewards; compulsory; work-related stress 33
Mediation; transformational leadership; well-being; work characteristics; longitudinal; healthcare 16
Military personnel; occupational stress; affective strain; job demand-control model; longitudinal research 81
Morningness–eveningness; burnout; effort–reward imbalance; shift work; work–family conflict; work-related stress 125
Need satisfaction; job demands-resources model; self-determination theory; burnout; work engagement 277
Nursing; demand-control-support model; intent to leave; employment opportunity; workrelated stress 166
Occupational stress; affective strain; job demand-control model; longitudinal research; military personnel 81
Organizational change; self-rated health; biological stress markers; sick leave; work-related stress 69
Organizational commitment; job demands-resources model; work engagement; burnout; well-being; depression; cross-lagged panel analysis; positive psychology; dentists 224
Overtime work; fatigue; work hours; work satisfaction; worktime control; rewards; mandatory; compulsory; work-related stress 33
Performance; burnout; job resources; workaholism; work engagement 187
Performance; engagement; job embeddedness; turnover; intention to leave; decision to perform; decision to participate 242

Positive psychology; job demands-resources model; work engagement; burnout; well-being; depression; organizational commitment; cross-lagged panel analysis; dentists 224
Post-incident intervention; PTSD; critical incident stress debriefing; firefighter; preference; work-related stress 314
Preference; post-incident intervention; PTSD; critical incident stress debriefing; firefighter; work-related stress 314
Psychological detachment; diary study; affect; recovery; work engagement 257
PTSD; post-incident intervention; critical incident stress debriefing; firefighter; preference; work-related stress 314
Recovery; diary study; affect; psychological detachment; work engagement 257
Reversed effects; causality; job change; job resources; work engagement; longitudinal study 201
Rewards; overtime work; fatigue; work hours; work satisfaction; worktime control; mandatory; compulsory; work-related stress 33
Risk assessment; work-related stress; confirmatory factor analysis, psychometrics; health and safety executive; indicator tool 96
Self-determination theory; job demands-resources model; burnout; work engagement; need satisfaction 277
Self-employed; workaholism; entrepreneurs; effort expenditure; well-being; burnout; working hours; work-related stress 153
Self-rated health; organizational change; biological stress markers; sick leave; work-related stress 69
Sem analysis; work–family conflict; work–family facilitation; burnout; Conservation of resources (cor) theory; longitudinal study; work-related stress 1
Shift work; burnout; effort–reward imbalance; morningness–eveningness; work–family conflict; work-related stress 125
Shiftwork; work–family conflict; work-related stress; depression; gender 341
Sick leave; organizational change; self-rated health; biological stress markers; work-related stress 69
Spillover; alcohol use; cross-lagged models; downsizing; longitudinal research; job security; work-related stress 51
Substance use; transit operators; job stress; coping; burnout symptoms 327
Transformational leadership; well-being; mediation; work characteristics; longitudinal; healthcare 16
Transit operators; job stress; coping; substance use; burnout symptoms 327
Turnover; engagement; job embeddedness; performance; intention to leave; decision to perform; decision to participate 242
Violence; climate; aggression; work-related stress 108
Well-being; job demands-resources model; work engagement; burnout; depression; organizational commitment; cross-lagged panel analysis; positive psychology; dentists 224
Well-being; transformational leadership; mediation; work characteristics; longitudinal; healthcare 16
Well-being; workaholism; self-employed; entrepreneurs; effort expenditure; burnout; working hours; work-related stress 153
White blood cell count; job strain model; inflammation markers; fibrinogen; C-reactive protein; work-related stress 138
Work characteristics; transformational leadership; well-being; mediation; longitudinal; healthcare 16
Work engagement; burnout; job resources; performance; workaholism 187
Work engagement; causality; job change; job resources; reversed effects; longitudinal study 201
Work engagement; diary study; affect; psychological detachment; recovery 257
Work engagement; job demands-resources model; burnout; well-being; depression; organizational commitment; cross-lagged panel analysis; positive psychology; dentists 224
Work engagement; job demands-resources model; self-determination theory; burnout; need satisfaction 277
Work hours; overtime work; fatigue; work satisfaction; worktime control; rewards; mandatory; compulsory; work-related stress 33
Work satisfaction; overtime work; fatigue; work hours; worktime control; rewards; mandatory; compulsory; work-related stress 33
Workaholism; burnout; job resources; performance; work engagement 187
Workaholism; self-employed; entrepreneurs; effort expenditure; well-being; burnout; working hours; work-related stress 153
Work–family conflict; burnout; effort–reward imbalance; morningness–eveningness; shift work; work-related stress 125
Work–family conflict; shiftwork; work-related stress; depression; gender 341
Work–family conflict; work–family facilitation; burnout; Conservation of resources (cor) theory; sem analysis; longitudinal study; work-related stress 1
Work–family facilitation; work–family conflict; burnout; Conservation of resources (cor) theory; sem analysis; longitudinal study; work-related stress 1

Working hours; workaholism; self-employed; entrepreneurs; effort expenditure; well-being; burnout; work-related stress 153
Work-related stress; alcohol use; cross-lagged models; downsizing; spillover; longitudinal research; job security 51
Work-related stress; burnout; effort–reward imbalance; morningness–eveningness; shift work; work–family conflict 125
Work-related stress; confirmatory factor analysis, psychometrics; health and safety executive; indicator tool; risk assessment 96
Workrelated stress; demand-control-support model; intent to leave; nursing; employment opportunity 166
Work-related stress; job strain model; inflammation markers; fibrinogen; C-reactive protein; white blood cell count 138
Work-related stress; organizational change; self-rated health; biological stress markers; sick leave 69
Work-related stress; overtime work; fatigue; work hours; work satisfaction; worktime control; rewards; mandatory; compulsory 33
Work-related stress; post-incident intervention; PTSD; critical incident stress debriefing; firefighter; preference 314
Work-related stress; shiftwork; work–family conflict; depression; gender 341
Work-related stress; violence; climate; aggression 108
Work-related stress; workaholism; self-employed; entrepreneurs; effort expenditure; well-being; burnout; working hours 153
Work-related stress; work–family conflict; work–family facilitation; burnout; Conservation of resources (cor) theory; sem analysis; longitudinal study 1
Worktime control; overtime work; fatigue; work hours; work satisfaction; rewards; mandatory; compulsory; work-related stress 33

Contents of Volume 22 2008

Number 1 January–March 2008

Positive and negative work–family interaction and burnout: A longitudinal study of reciprocal relations
S. T. Innstrand, E. M. Langballe, G. A. Espnes, E. Falkum and O. G. Aasland 1

The effects of transformational leadership on followers' perceived work characteristics and psychological well-being: A longitudinal study
K. Nielsen, R. Randall, J. Yarker and S. O. Brenner 16

Voluntary or involuntary? Control over overtime and rewards for overtime in relation to fatigue and work satisfaction
D. G. J. Beckers, D. van der Linden, P. G. W. Smulders, M. A. J. Kompier, T. W. Taris and S. A. E. Geurts 33

Downsizing and alcohol use: A cross-lagged longitudinal examination of the spillover hypothesis
P. Sikora, S. Moore, E. Greenberg and L. Grunberg 51

Organizational change, health, and sick leave among health care employees: A longitudinal study measuring stress markers, individual, and work site factors
A.-S. Hansson, E. Vingård, B. B. Arnetz and I. Anderzén 69

Number 2 April–June 2008

A temporal investigation of the direct, interactive, and reverse relations between demand and control and affective strain
J. S. Tucker, R. R. Sinclair, C. D. Mohr, A. B. Adler, J. L. Thomas and A. D. Salvi 81

Psychometric analysis of the UK Health and Safety Executive's Management Standards work-related stress Indicator Tool
J. A. Edwards, S. Webster, D. V. Laar and S. Easton 96

Organizational violence and aggression: Development of the three-factor Violence Climate Survey
S. R. Kessler, P. E. Spector, C.-H. Chang and A. D. Parr 108

Investigating effort–reward imbalance and work–family conflict in relation to morningness–eveningness and shift work
T. A. Willis, D. B. O'Connor and L. Smith 125

The Job Demand-Control-Support Model and stress-related low-grade inflammatory responses among healthy employees: A longitudinal study
A. Shirom, S. Toker, S. Berliner and I. Shapira 138

All day and all of the night: The relative contribution of two dimensions of workaholism to well-being in self-employed workers
T. W. Taris, S. A. E. Geurts, W. B. Schaufeli, R. W. B. Blonk and S. E. Lagerveld 153

The Demand-Control-Support model and intent to leave across six European countries: The role of employment opportunities
M. Widerszal-Bazyl, P. Radkiewicz, H.-M. Hasselhorn, P. M. Conway, B. van der Heijden and the NEXT Study Group 166

Number 3 July–September 2008

Special Issue: Engagement at Work: An Emerging Concept

Editorial. Engagement at work: An emerging concept
T. Taris, T. Cox and M. Tisserand 185

Position paper. Work engagement: An emerging concept in occupational health psychology
A. B. Bakker, W. B. Schaufeli, M. P. Leiter and T. W. Taris 187

Should I stay or should I go? Examining longitudinal relations among job resources and work engagement for stayers versus movers
A. H. de Lange, H. De Witte and G. Notelaers 201

The Job Demands-Resources model: A three-year cross-lagged study of burnout, depression, commitment, and work engagement
J. J. Hakanen, W. B. Schaufeli and K. Ahola 224

The relative roles of engagement and embeddedness in predicting job performance and intention to leave
J. R. B. Halbesleben and A. R. Wheeler 242

Being engaged at work and detached at home: A week-level study on work engagement, psychological detachment, and affect
S. Sonnentag, E. J. Mojza, C. Binnewies and A. Scholl 257

Explaining the relationships between job characteristics, burnout, and engagement: The role of basic psychological need satisfaction
A. Van den Broeck, M. Vansteenkiste, H. De Witte and W. Lens 277

Number 4 October–December 2008

Direct and indirect conflicts at work in China and the US: A cross-cultural comparison
C. Liu, M.M. Nauta, P.E. Spector and C. Li 295

Firefighter preferences regarding post-incident intervention
J.M. Jeannette and A. Scoboria 314

Job stress, burnout and substance use among urban transit operators: The potential mediating role of coping behaviour
M.-J. Chen and C. Cunradi 327

The mediating role of work-to-family conflict in the relationship between shiftwork and depression
V.Y. Haines III, A. Marchand, V. Rousseau and A. Demers 341
